

# Weyerhaeuser Vendor VPN

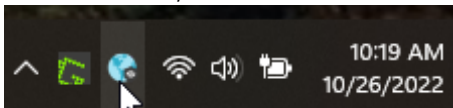

## NEW VPN CLIENT FOR VENDORS (UNMANAGED DEVICES): GLOBALPROTECT BY PRISMA

### What to expect:

#### The following is required to connect to Global Protect agent

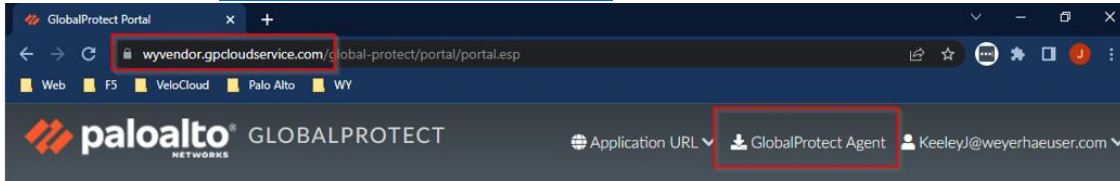

- Vendors with devices not managed by Weyerhaeuser IT will be required to use Azure MFA when connecting to GlobalProtect VPN.
  - If a contractor has not previously enrolled in Weyerhaeuser Azure MFA, they can do so here: <https://aka.ms/mfasetup>.
- After connecting to GlobalProtect, the contractor will be prompted for MFA while working from their home office, public Wi-Fi, or even wireless hotspot.
- The contractor will notice a small globe icon in your system tray after downloading and installing the GlobalProtect client. If the icon is greyed out this means disconnected, and blue means connected.

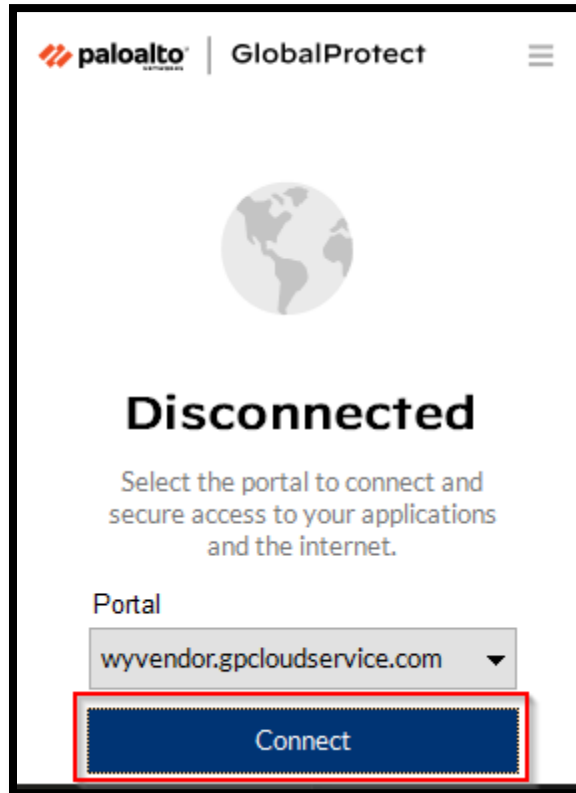

### Action required:

- **What is required of you?**
  - The contractor needs a **Weyerhaeuser domain account created**. If this is for an existing contractor, skip this step.
  - **Manager of contractor should request access to Secure Remote Access - Contractors (Unmanaged)** group via IAM.Weyer.com for the specific contractor that needs remote access.
  - **Download and Install GlobalProtect client** using a web browser and navigating to [wyvendor.gpcloudservice.com](http://wyvendor.gpcloudservice.com).
    - To log in, you will need to **enter your Weyerhaeuser username and password** to download and install the client. When you login with your

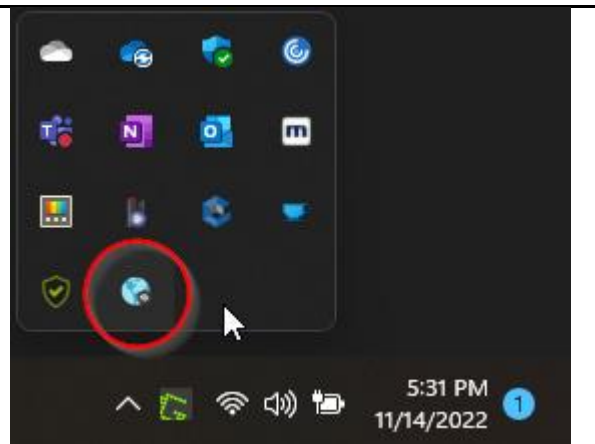

username to download the agent the username is [CORPID@weyerhaeuser.com](mailto:CORPID@weyerhaeuser.com).

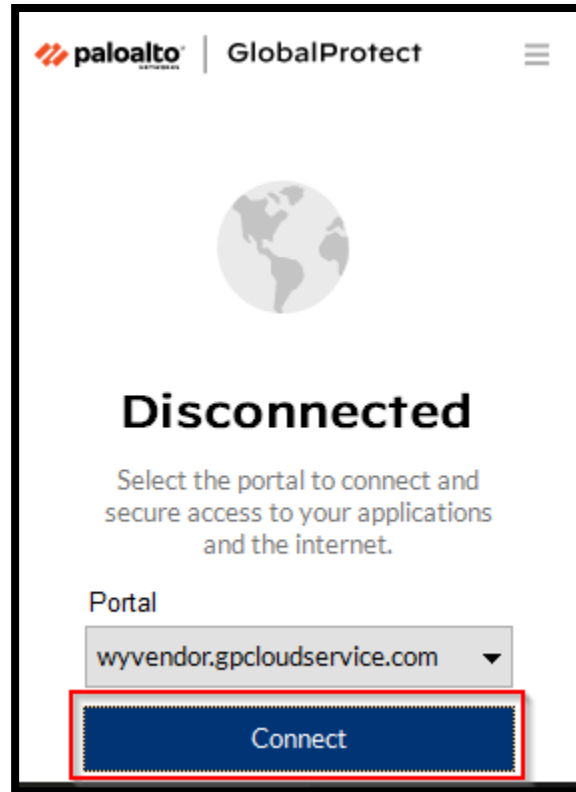

- **Connect to GlobalProtect** using the Portal Address: [wyvendor.gpcloudservice.com](http://wyvendor.gpcloudservice.com).

- 1) Verify the Global Protect agent is connected by looking at the small globe icon located in your system tray

- 2) If the Global Protect icon is grey double-click on the icon and choose "Connect"

**More Information:**

Please utilize the [IT Service Portal - Cherwell](#) or the **IT Service Desk** at **877-924-7373** for support with GlobalProtect for VPN.
